OTHER: All materials used meet the requirements of the DGM according to RAL GZ 430. The appearance of the stitching may vary depending on the fabric, leather and synthetic leather used. The definition of quilted mats and cushions depends on the design and structure. The appearance of ornamental, fell and double-stitched seams may vary depending on the fabric, leather and synthetic leather variants.

Especially light upholstery is distinguished by its highly soft surface. In new condition, the covers exhibit a pronounced wave pattern purposefully based on the design and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on units are design-based and are therefore not a cause for complaint.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back of the individual fabrics and leathers in our fabric and leather samplers.

All dimensions specified in the price list are approximate dimensions in centimetres. We reserve the right to make changes in shape, colour and design in the scope of technical progress. Please always order from left to right as standing in front of the suite.
