Product and ordering information

**Model available in price groups 6, 8, 10, D, H, J, M and X -
For choice of fabrics and leathers please refer to our latest fabric/leather collection**

STRUCTURE:

Frame: Load-bearing parts of the frame made of solid wood and wood-based materials, surfaces lined with padded cardboard.

Seat: Spring system with permanently elastic steel sinuous springs and upper-side cover.
Loose seat cushions with a PUR-foam core (min. RG 35). Seat covered with cotton wadding.
Under the cushions there are Velcro straps for a better grip.

Soft, flexible upholstery structure where the formation of wave patterns in the covers and seat imprints are part of the design and are therefore characteristic.

The upholstery will adjust to the shape of the body and the firmness of the seat will give a little. Minor differences in the seat firmness with add-on elements are design-based and are therefore not a cause for complaint .

Back: Loose back cushions with a ticking (filled with high-quality filling material which may contain an admixture of feathers).

Chamber cushions: This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting.
The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material.
In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.
