Decorative fabric: The decorative fabric is not produced in repeating pattern. The seat, the back and the inside faces of the armrests are available in price groups 6, 8 and 10.

Available legs: Chrome or wood, for available wood tones please refer to the wood sample card (including the special colour "Oiled Oak" - available at a surcharge)

OTHER: All materials used meet the requirements of the DGM according to RAL GZ 430.
 The distribution of the stitching may vary depending on the fabric, leather and synthetic leather used.
 With loose seat and back cushions, the definition of the cushion chamber divisions may be visible (especially with leather covers), this is typical of the product and is a deliberate feature of the design.
 The appearance of decorative, fell and double-stitched seams may vary depending on the fabric, leather and synthetic leather used.

"Especially light upholstery" is distinguished by its very soft surface. In new condition, the covers already exhibit a pronounced wave pattern purposefully based on the design, model and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on elements are design-based and are therefore not a cause for complaint.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back refer to our of the individual fabrics and leathers in our fabric and leather samplers.

All dimensions stated in the price list are approximate dimensions in centimetres. We reserve the right to make changes in shape, colour and design within the scope of technical progress. Please always order from left to right as standing in front of the suite.
