Checklist

So you won't forget any of our choices...

Please use this checklist in order to discuss all options with your customer.

An absolute must

The following options must be considered for this model (please always mention with your order):

Seat design

Seat height

Back cushion execution

Armrests

Feet

Functions

Have you explained to your customer the advantages of the following functions?

Comfort bed with storage

Storage

Cross sleeper

Accessories

Have you informed your customers about the selection of our accessories?

Stool

Pillow

Headrest

Model: Intermezzo

Product and ordering information

Frame: Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cover.

Seat: Spring system with permanently elastic steel sinuous springs and an upper-side cover. (for illustration see „cross sections and ordering information“)

Variant 1: Seat made of PUR foam (mind. RG 35), structured in layers harmonised in different thicknesses and hardnesses. Cover made of cotton wool fleece. (for illustration see „cross sections and ordering informations“)

Variant 2: Spring core seat made of drawn spring steel wire (except stool). Seat covered with textile fleece, PUR foam (min. RG 35) and cotton wool fleece. (for illustration see „Ordering informations and Cross sections“)

Variant 3: Point-elastic barrel pocket spring core seat (TTFK) made of drawn spring steel wire (except stool). Seat covered with textile fleece, foam (min. RG 35) and cotton wool fleece. (for illustration see „cross-sections and ordering information“)

Chamber cushions: This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.

Back: Loose back cushions with a ticking (filled with high-quality fillers) and a cover of cotton wadding.

Upholstery: Soft, loose upholstery structure, in which a model-related or design-related wave formation of the covers, as well as seat impressions, are typical for the product. The upholstery will adapt to the body shape or the seat firmness will slightly decrease. Minor differences in the seat firmness in the case of add-on assemblies are due to the design and are therefore no reason for complaint.

Model: Intermezzo

Product and ordering information

Seat height: 42 cm Seat height (12 cm Foot height)

45 cm Seat height (15 cm Foot height)

48 cm Seat height (18 cm Foot height) -
(not possible in connection with the cross sleeper)

Decorative fabric: The decorative fabric is only available for selected types (armrest cushion, flutter cushion and cushion) and pattern matching is not possible. The prices can be found on PG 6 or PG 10.

Dimensions:

Total height at seat height 42 = **78 cm** (Standard height)
Total height at seat height 45 = **81 cm** (Standard height)
Total height at seat height 48 = **84 cm** (Standard height)
Total height at seat height 42 = **83 cm** (Comfort height)
Total height at seat height 45 = **86 cm** (Comfort height)
Total height at seat height 48 = **89 cm** (Comfort height)
Depth: **97 cm**
Seat depth: **56 cm**

Miscellaneous: All materials used meet the requirements of the DGM according to RAL GZ 430. The appearance of the stitching may vary depending on the fabric, leather and artificial leather used.

The definition of quilted mats and cushions depend on the design and structure.

The appearance of decorative, fell and double seams may vary depending on the fabric, leather and artificial leather used.

All backrest tensioning parts are supplied as standard in their respective original covers.

Material-related information can be found in our fabric and leather flaps on the back with the individual fabric and leather qualities. All values stated in the price list are approximate measurements in centimetres, determined by the usual measuring method (see RAL-GZ 430) and in unused new condition.

Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress.

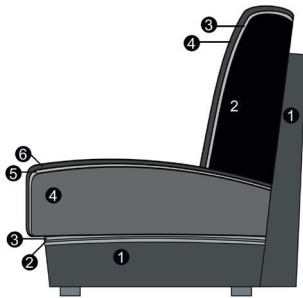

Please always order from left to right as standing in front of the suite!

NOT possible

Model: Intermezzo

Functions

Comfort bed with storage:

With the comfort bed with storage space, you determine which seat depth and position you prefer. To do this, raise the seat slightly and pull it out towards the front. The backrest stays straight. Another highlight: under the hinged seat there is a storage space with enough space for blankets or pillows. Seat depth (incl. cushion) : 81 cm

Cross sleeper:

With the cross sleeper function, your sofa grows to XXL size. To do this, pull out the roller drawer under the seat. Then pull out the widened lying surface slightly upwards and gently snap the cushion into place at the level of the seat. Your spacious lounge / relaxation area is ready.

Lying areas without back cushion: 2,5-seater approx. 160 x 140 cm, 2-seater approx. 140 x 140 cm, 2-seater medium approx. 120 x 140 cm. The lying area is covered in the original cover of the seat mat.

Attention: If the sleep function is ordered in leather, the lying surface is covered with neutral fabric.

Lying surface also possible for leather trimmings in leather - available for a surcharge!

Storage:

The entire seat can be opened upwards. The integrated storage box offers plenty of space for blankets or pillows. Thanks to the built-in, ventilated storage box, your seating area is always tidy.

comfort bed with storage seat depth with function: 81 cm

Cross sleeper seat depth with function: 122 cm

Elements with only one or without armrests cannot be placed individually or combined with each other. **Please add the armrest sizes to the respective types!**

The seat height 48 cm is not possible in connection with the cross sleeper!

For technical reasons, the sleep function in connection with the article „angular corner large“ cannot be made without closing the gap, so that no closed lying surface can be created. Due to the resulting gap of approx. 20 cm, this combination cannot be ordered!

Basic elements

Please note that for technical reasons each element with an armrest must always be combined with a basic element (e.g. longchair, corner element, corner, ...).

Elements with only one or without armrests cannot be placed individually or combined with each other. **Please add the armrest sizes to the respective types!**

*can be placed individually, as without connectors and covered on the sides, can therefore not be combined with other elements!

For technical reasons, the sleep function in connection with the article „angular corner large“ cannot be made without closing the gap, so that no closed lying surface can be created. Due to the resulting gap of approx. 20 cm, this combination cannot be ordered!

Goldenes M & Emissionslabel

Are you demanding? That's fine - we are too!

Therefore, we attach great importance to durability, material quality, longevity, safety and health tolerance!

Because our furniture meets the high standards of the Gütegemeinschaft Möbel e.V., our entire product range is awarded the quality mark „Golden M“ and the highest possible emission class A.

Quality mark „Goldenes M“

Nearly 50 years of research, laboratory tests, field tests, comparisons and scientific exchange is behind the RAL quality mark „Goldenes M“.

- Tested quality according to quality and test regulations RAL-GZ 430
- Guaranteed safety through elaborate laboratory and functional tests
- Healthy living through strict limits for pollutants - sometimes more stringent than the law requires, which were determined in independent test laboratories

The „Goldenes M“ means for the furniture buyer: This is quality, you can rely on.

Emission label

An expert group of the Deutsche Gütegemeinschaft Möbel e.V. has developed in collaboration with leading test institutes such as TÜV Rheinland, the LGA Nuremberg and the ECO Institute an Emission label for furniture.

- The label gives the consumer information about pollutant emission and should protect him from health protect impairments
- The entire range is classified according to these guidelines
- The proof of classifications is based on compliance of the awarding basis with appropriate pollutant tests from neutral testing institutes based on the requirements of RAL-GZ 430 or the Blue Angel's.

Our products meet the highest emission class „A“, which gives us a clear conscience and you a maximum of safety with regards to the emission levels of your upholstery.

Are you demanding? That's fine - we are too!

Especially in the leather area, a responsible approach to the environment and health is very important for us.. Our leathers have been awarded the „Blue Angel“ because we specifically select upholstery leathers for our furniture that are harmless to health.

So that our customers can enjoy their leather furniture for a long time, we now offer the possibility to take out an additional 5-year service up to 4 weeks after purchasing the furniture.

www.blauer-engel.de/uz148

Blue Angel - environmentally friendly upholstery leather

The Blue Angel for low-emission upholstery leather signals that the excellent leathers minimize the environmental and health burdens from production over the entire daily use to recycling and disposal. The following leather qualities are awarded with the Blue Angel:

Cento
Dickleder Torero
Life-Line
Vicenza

The Blue Angel is the world's most successful eco-label with a brand awareness of 92%!

5-Year-Longlife-Service

With the right cleaning and care products you keep the value of your upholstered furniture and enjoy it for a long time. As part of this 5-Year LONGLIFE-Service, you will receive professional phone support, free special products and free support.

The Service can be completed for the following leather qualities:

Cento
Dickleder Torero
Mercury
Vicenza

Longlife
by 3C Care

5-Year-LONGLIFE-Service provides security for a upholstery leather that is particularly durable and easy to care for!

For more information please see www.3c-care.de

OEKO-TEX® STANDARD 100 + klimaneutraler Hersteller

What is OEKO-TEX®?

Many of our fabrics and upholstery materials have been awarded the STANDARD 100 by OEKO-TEX® label. If a textile article has been awarded this label, you can be sure that this fabric or upholstery material has been tested for harmful substances and the article is therefore harmless to health.

You can find information on which of our upholstery fabrics are certified and other helpful information on our homepage at <https://www.candy-polstermoebel.de/bezuege/stoffe/>

The award offers you the following advantages:

- STANDARD 100 by OEKO-TEX® is one of the world's most renowned labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.
- The testing is carried out by independent OEKO-TEX® institutes on the basis of a comprehensive OEKO-TEX® criteria catalogue.
- The test procedure takes into account many substances, both regulated and non-regulated, that could be harmful to human health.
- In many cases, the limit values set for the STANDARD 100 go beyond national and international standards.
- The catalogue of criteria is updated at least once a year and expanded to include new scientific findings or legal requirements.

(example label)

We are a climate-neutral furniture manufacturer (on balance sheet and through CO₂ certificates)

We can proudly say that we have been awarded as a climate-neutral manufacturer by the DGM. Our actions are always oriented towards the careful use of resources in order to protect and preserve the livelihoods of people, animals and plants. For 3C, sustainability is not just an advertising promise - the development of sustainable products is a matter of course for us.
