Product and ordering information

Models available in price groups 6, decorative fabric (PG 6), 8, 10 and decorative fabric (PG 10) -
For choice of fabrics and leathers please refer to our latest fabric/leather collection

STRUCTURE:

Frame: Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cardboard.
Seat: Spring system with permanently elastic steel sinuous springs and upper-side cover. Seat made of PUR-foam (min. RG 35), structured in layers harmonised in different thicknesses and hardnesses. Seat covered with a ticking (filled with high quality filling material, which may contain and admixture of feathers), covered with cotton wadding.

Especially light upholstery is distinguished by its highly soft surface. In new condition, the covers exhibit a pronounced wave pattern purposefully based on the design and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on units are design-based and are therefore not a cause for complaint.

Back: Loose back cushions with a ticking (filled with high-quality filling material, which may contain an admixture of feathers)

Chamber cushions: This model is equipped with high quality chamber cushions. The filling material is held in chambers to prevent it from moving. Depending on the type and strength of the cover, both the chambers and the filling material may become more or less distinct. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, the seat and back cushions should be plumped up after use, just like you do with pillows.

OTHERS: All materials used meet the requirements of the DGM according to RAL GZ 430.
All elements are equipped with grid connectors and completely covered
The distribution of the stitching may vary for fabric, leather and synthetic leather processing.
The definition of quilted mats and cushions depend on the design or structure.
The appearance of the stitching may vary depending on the fabric, leather and artificial leather used.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back refer to our of the individual fabrics and leathers in our fabric and leather samplers.

All dimensions stated in the pricelist are approximate dimensions in cm, determined according to usual measuring method (see RAL-GZ 430) and in unused new condition. Please note that in case of very light upholstery especially the seat height and seat depth can be discerned during the course of use to the dimensions mentioned. We reserve the right to make changes in shape, colour and design within the scope of technical progress. Please always order from left to right as standing in front of the suite.
